BEST GAME EVER !!!!!!!!!!!. The online multiplayer is intense

10/10. Why are my fingers not in somebody's eye sockets right now. Why are my fingers not in somebody's eye sockets right now. **WHY aRE mY fINGERS nOT iN sOMEBODY'S eYE sOCKETS rIGHT nOW!**. It's been years since I first played the game on my now "inconsolable" Xbox 360! I still remember how crazily obsessed I was with the High School Musical franchise, and binged on all four movies (Including the Sharpay spin-off) on weekends and thought the High School Musical version of Disney Sing It was the ultimate Karaoke experience. Arguably, I now use "puberty" as a perjorative and have a what is considered by most adult human beings a more "mature" taste. Still, I can't shake the feeling that there's something missing in this acquired maturization. Perhaps we all need a momento to relive those simple yet genuinely happy sensations that are for some reason hard to find these days. This game is mine.

I would love it if it can support ultrawide screens. But it's good enough for what it is.. i mean, i guess you get used to the bootleg covers. Thought this game was gonna be trash, but I ended up liking it. The graphics are awful and I think the game is locked at 30 fps, because there was no option to change the refresh rate, however , the gameplay is fun and easy to pick up , and the game has a good soundtrack (for the most part) I wouldn't pay full price for this game, but it's defenitely worth buying if it goes on sale.
